

AI Leadership: AI Adoption, Procurement and Governance

The AI Adoption, Procurement and Governance Apprenticeship Unit is aimed at leaders and managers responsible for selecting, implementing, and governing AI solutions within their organisation.

Learners will gain the skills to evaluate AI technologies and suppliers, make informed procurement decisions, assess risks, and establish governance frameworks that support the responsible use of AI.

The programme also explores ethical, legal, regulatory, and compliance considerations, helping organisations adopt AI safely and effectively. With businesses increasingly investing in AI technologies, this unit equips leaders with the knowledge needed to ensure AI decisions deliver value while maintaining transparency, accountability, and good governance.

How long does the Apprenticeship take?

A minimum of 30 guided learning hours.

What qualifications will the learner receive?

Level 5 Apprenticeship Unit certification for the relevant AI Leadership unit.

What are the entry requirements?

Typically, candidates will be aged 19 or over, be employed, have employer support to undertake the programme, be working in, or progressing towards, a leadership or management role relevant to the unit.

Why choose Acorn Training?

We put our learners at the heart of everything we do. All our apprentices receive tailored one to one support from both a dedicated learning tutor and a learning mentor to ensure they are well-supported throughout their apprenticeship journey with us. We are an award-winning training provider renowned for our diversity and inclusion values and have recently been awarded a 'Good' rating in our first full Ofsted Inspection.
