

Level 4: Data Analyst Apprenticeship

Data analysis involves the process of collecting requirements, examining, cleansing, transforming, and modelling data with the aim of uncovering valuable information, drawing conclusions, and aiding decision-making. It encompasses various techniques under different names, forming a multifaceted and approach-driven practice. In the contemporary context, data analysis is pivotal for rendering decisions more evidence-based and enhancing the operational efficiency of organisations.

How long does the Apprenticeship take?

24 Months.

What qualifications will the learner receive?

Level 4 Data Analyst.

What are the entry requirements?

Typically candidates will have achieved five GCSEs and/or A levels; a Level 3 Apprenticeship; other relevant qualifications and experience.

Why choose Acorn Training?

We put our learners at the heart of everything we do. All our apprentices receive tailored one to one support from both a dedicated learning tutor and a learning mentor to ensure they are well-supported throughout their apprenticeship journey with us. We are an award-winning training provider renowned for our diversity and inclusion values and have recently been awarded a 'Good' rating in our first full Ofsted Inspection.
