

LEVEL 4

DATA ANALYST

with acorn TRAINING

What is this role / apprenticeship?

Data analysis involves the process of collecting requirements, examining, cleansing, transforming, and modelling data with the aim of uncovering valuable information, drawing conclusions, and aiding decision-making. It encompasses various techniques under different names, forming a multifaceted and approach-driven practice. In the contemporary context, data analysis is pivotal for rendering decisions more evidence-based and enhancing the operational efficiency of organisations.

How long does the apprenticeship take?

21 months on programme + 3 months EPA.

What qualifications will the learner receive?

- Level 4 Data Analyst
